The Provisional Agenda (EXCOM-XLI/Doc.1), as attached in Annex 1, was adopted adding, under Any Other Matters, an agenda item on a “FAO Soil Organic Carbon (SOC) symposium” and a second agenda item on “Roles, responsibilities and working arrangements between the IPCC Secretariat and the Technical Support Units”.

2. URGENT ISSUES RELATED TO IPCC PRODUCTS AND PROGRAMME OF WORK THAT REQUIRE PROMPT ATTENTION BY THE IPCC BETWEEN PANEL SESSIONS

2.1. Arrangements for scoping the Special Report on the impacts of global warming of 1.5 °C above pre-industrial levels and related global greenhouse gas emission pathways, in the context of strengthening the global response to the threat of climate change, sustainable development and efforts to eradicate poverty.

Ms Thelma Krug, Chair of the Steering Committee for scoping the Special Report reported on the state of play in the selection of experts to participate in the scoping meeting to be held in Geneva from 15 to 18 (a.m) August 2016. The Secretariat reported on the state of play regarding the logistics for the organization of the scoping meeting.

The Executive Committee discussed how to improve the balance among experts to be invited to the scoping meeting regarding scientific, technical and socio-economic expertise; geographical representation; a mixture of experts with and without previous experience in IPCC; gender balance; and experts with a background from various stakeholder and user groups. The Executive Committee also discussed how to enhance the participation of experts from developing countries, mindful that the IPCC budget would allow providing travelling support to up to 50 experts from developing countries and countries with economies in transition.

The Executive Committee agreed that the Steering Committee should make recommendations to the WG Bureaux in these regards.

2.2. Arrangements for scoping the Special Report on climate change, desertification, land degradation, sustainable land management, food security, and greenhouse gas fluxes in terrestrial ecosystems.

The Secretariat introduced the revised draft Terms of Reference for the Scientific Steering Committee for scoping the Special Report on climate change, desertification, land degradation, sustainable land management, food security and greenhouse gas fluxes in terrestrial ecosystems.

The Executive Committee approved the Terms of Reference as attached in Annex 2.

2.3. Arrangements for scoping the Special Report on climate change and oceans and the cryosphere.

The Secretariat introduced the revised draft Terms of Reference for the Scientific Steering Committee for scoping the Special Report on climate change and oceans and the cryosphere.

The Secretariat reported on recent contacts with the Principality of Monaco regarding its financial support to the Special Report.

The Executive Committee approved the Terms of Reference as attached in Annex 3 and took note of the reports.

2.4. Schedule and arrangements for scoping the Methodology Report on Greenhouse Gas Inventories.

Mr Kiyoto Tanabe, Co-Chair of the Task Force Bureau, gave an oral report on progress in the preparations for the scoping meeting, including the process of selection of experts to be invited to the scoping meeting.

The Secretariat reported that the negotiations regarding the Host Country Agreement with Republic of Belarus have successfully concluded.

The Executive Committee took note of the reports.

The Secretariat also reported on ongoing plans for outreach activities in Cuba, Ecuador (HABITAT III Conference), Fiji, Jamaica, Thailand and Vietnam.

The Executive Committee took note of the report.

4. RESPONSE TO POSSIBLE ERRORS IN COMPLETED ASSESSMENTS AND OTHER IPCC PRODUCTS

4.1. Update on the implementation of the Error Protocol.

The Secretariat introduced this agenda item and the Executive Committee took note of the report.

5. COORDINATION BETWEEN WORKING GROUPS AND TASK FORCES ON ACTIVITIES AND ISSUES PERTAINING TO THE PRODUCTION OF ASSESSMENTS AND OTHER RELEVANT IPCC PRODUCTS

5.1. Strategic Planning Schedule for the Sixth Assessment Report cycle.

The Secretariat introduced the revised Strategic Planned Schedule for the Sixth Assessment Report cycle, developed in collaboration with the four Technical Support Units.

The Executive Committee approved the Strategic Planning Schedule as contained in Annex 4. The Executive Committee agreed that this Strategic Planning Schedule should be transmitted for information to the National Focal Points and the observer organizations.

The Executive Committee agreed to have a preliminary exchange of views on how to handle scientific contents in the Sixth Assessment Report under the agenda Item “Any Other Matters” of its next meeting.

6. ANY OTHER MATTERS

6.1. FAO Soil Organic Carbon (SOC) symposium.

Mr Jim Skea, Co-Chair of Working Group III reported on recent contacts with the Food and Agriculture Organization (FAO) regarding their proposals for the IPCC to Co-sponsor two different symposia: a symposium on Soil Organic Carbon and a symposium on Climate Change, Land Use and Food Security.

The Executive Committee agreed that the Scientific Steering Committee for the scoping of the Special Report on climate change, desertification, land degradation, sustainable land management, food security and greenhouse gas fluxes in terrestrial ecosystems should provide advice on how to respond to the kind proposals from FAO. Thereafter the Secretariat should respond to FAO in writing.

6.2. Roles, responsibilities and working arrangements between the IPCC Secretariat and the Technical Support Units

At the request of Mr Skea the Secretariat updated the Executive Committee on initiatives to clarify the roles, responsibilities and working arrangements between the IPCC Secretariat and the Technical Support Units, as requested in the 2015 Resolution 6.2/1 (Cg-17) of the World Meteorological Organization Congress and in paragraph 18 of Decision IPCC/XLI.
