Notes for editors

The IPCC is considering the Working Group III contribution to the Fifth Assessment Report, dealing with the mitigation of climate change, in Berlin on 7-11 April 2014. The Summary for Policymakers will be released on 13 April and the full report within two days. The full report will be published online in August and in book form a few months later.

The Working Group I contribution, on the physical science basis of climate change, was released on 27 September 2013 and the full report published on 30 January 2014. The Working Group II contribution, on impacts, adaptation and vulnerability, was released on 31 March 2014. The Fifth Assessment Report will be completed with the Synthesis Report that will be considered by the IPCC in Copenhagen on 27-31 October 2014.
