IPCC MEDIA ADVISORY

17 March 2014

Interviews with IPCC Working Group II authors

GENEVA, 17 March – Following the press conference on Monday 31 March 2014 in Yokohama to present the Working Group II contribution to the Fifth Assessment Report of the Intergovernmental Panel on Climate Change (IPCC), IPCC officials and Working Group II authors will be available for interview.

These interviews are expected to take place from 11.00 onwards Tokyo time. Interviews with authors in Yokohama can be conducted at the conference centre where the press conference takes place or by phone or through a broadcast facility for those not attending the press conference in person. Interviews can also be arranged with Working Group II authors who are not in Yokohama.

A list of IPCC experts available for interview can be found [here](#).

This list also indicates the country of the author, languages in which they can be interviewed, and the chapter of the report on which they have worked, indicating their field of specialization. Most of the authors were part of the drafting team for the Summary for Policymakers.

Requests for interviews should be made on [this form](#).

This form includes required fields for the name and outlet of the reporter, city and country of the outlet, phone and email contacts, type of media (e.g. print/radio/television), for broadcast live or recorded, preferred interviewee, preferred language, preferred time (making time zone clear). You will also be asked to note any special areas of interest.

The IPCC expects to receive more requests than can be accommodated. If your interview request cannot be met on Monday 31 March, there will be further opportunities in the following days and weeks. To accommodate as many interviews as possible on the day, the IPCC may also suggest an alternative interviewee, based on your needs specified when completing the form.

Please note that only interviews arranged via this process will be considered as confirmed. Any arrangements made directly with IPCC experts may be subject to cancellation.

Broadcasters

The IPCC, in conjunction with the national Japanese broadcaster NHK, has organised a broadcast facility in Yokohama that will be available for use by broadcasters who are not present at the meeting. You will be able to request both live and pre-recorded interviews. Broadcast requests should also be submitted through [the online form](#).

For information about the press conference including details of accreditation, and about the release of the Working Group II report, please see [the media advisory](#).

It is still possible to register for the press conference even though the original deadline has passed. A separate advisory about interview arrangements for the Working Group III report, which will be presented on Sunday 13 April, will be issued in the coming weeks.
