Getting involved

1

Contribute to existing literature

IPCC assessments are as good as the literature available. Look out for the various cut off dates for literature for the different reports.

2

As Authors or Review Editors

Bureaux selects Authors and Review Editors from lists of nominations provided by governments and observer organizations. Look out for the calls for nomination of authors and contact your IPCC Focal Point if you are interested in being nominated.

3

As Expert Reviewers

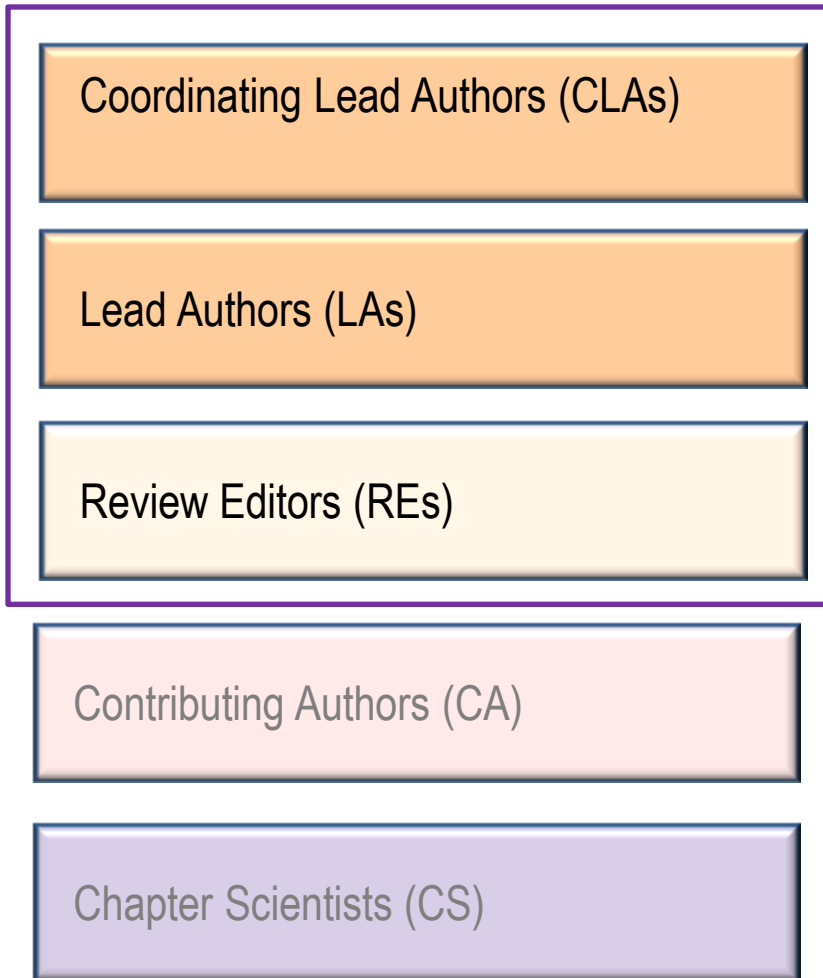

To be involved in the two review stages: Expert Review of the First Order Draft and Government and Expert Review of the Second Order Draft
