Government Review of Final Draft

Background

44th Session of the IPCC

- IPCC Panel at its 44th Session (17-20 October 2016, Bangkok, Thailand) decided to prepare a Methodology Report to refine the 2006 IPCC Guidelines for National Greenhouse Inventories (Decision IPCC/XLIV-5)
 - The format should be one single Methodology Report comprising an Overview Chapter and five volumes following the format of the 2006 IPCC Guidelines
 - The title of the Methodology Report should be “**2019 Refinement to the 2006 IPCC Guidelines for National Greenhouse Gas Inventories**”
- During its 44th Session, the Panel approved the outline of the 2019 Refinement (Decision IPCC/XLIV-5)

Authors and Review Editors

- The IPCC invited governments and organizations to nominate experts (31 October–9 December 2016)
- 328 nominations were received, and 190 experts have been selected by Task Force Bureau considering required expertise, geographical representation, gender balance and inclusion of experts with and without previous experience with IPCC

	CLAs	LAs	REs	Total
Volume 1	2	16	2	20
Volume 2	2	14	2	18
Volume 3	2	27	2	31
Volume 4	4	93	4	101
Volume 5	2	16	2	20
Total	12	166	12	190

2019 Refinement

- The overall aim of the refinement of the 2006 IPCC Guidelines is to provide an updated and sound scientific basis for supporting the preparation and continuous improvement of national greenhouse gas inventories
- The refinement work **will not revise** the 2006 IPCC Guidelines, but **will update, supplement and/or elaborate** the 2006 IPCC Guidelines where gaps or out-of-date science have been identified
- The *2019 Refinement* will not replace the 2006 IPCC Guidelines, but will be used in conjunction with the 2006 IPCC Guidelines
