Access to the premises of DLR Oberpfaffenhofen

Access is controlled by an electronic access control system. Access is therefore only possible with an activated employee or visitor badge.

All persons (visitors, suppliers, employees) who do not have a valid access badge must first stop at the visitor car park on the right-hand side and have a visitor / replacement badge issued at the reception desk.

Upon presentation of a valid identification document, you will receive a visitor pass and thus access to the area. Only passports, identity cards or residence permits with the note "valid as passport replacement" may be used as identity documents.

Access is then possible via the gate at the end of the visitor car park.
