(Submitted by the Secretary of the IPCC)

IPCC GENDER POLICY AND IMPLEMENTATION PLAN

1. INTRODUCTION

The IPCC, at its 47th Session, established a task group to develop a framework of goals and actions to improve gender balance and address gender-related issues within the IPCC. This Task Group, called the Task Group on Gender, presented its report at the 49th Session of the IPCC.

At its 49th Session, the Panel decided to establish a second Task Group, called the Task Group on Gender Policy and Gender Implementation Plan (TG-Gender). This Task Group was assigned with developing a draft Gender Policy and Implementation Plan to improve gender balance and address gender-related issues within the IPCC, for consideration by the Panel at its 52nd Session (decision IPCC-XLIX-5). This document represents the outcome of the work of TG-Gender, as mandated by the Panel.

1.1. Relevant IPCC Documents

As previously mentioned, the first IPCC Task Group on Gender prepared the Report on gender balance and gender related issues within the IPCC. This report was informed by a literature review, a survey of member countries and observer organizations, and a survey of IPCC authors and participants. This report documents those results and provides recommendations related to: national IPCC Focal Points; governance and management of the IPCC; and the production of reports. One recommendation was that a Gender Policy and Implementation Plan be developed, which was accepted by the Panel at its 49th Session (Decision IPCC-XLIX-5), and led to the creation of the second Gender Task Group and this document was generated.

1.2. The Mandate, Decision IPCC-XLIX-5:

The decision of the panel which establishes the mandate of the Task Group on Gender Policy and Gender Implementation Plan follows:

The Intergovernmental Panel on Climate Change at its 49th Session decides to:

- *Welcome the report of the IPCC Task Group on Gender and Gender-related issues within the IPCC and note the recommendations of the group as consideration for future work.*
- *Express its gratitude for the work of the members, the co-chairs and the rapporteur of the IPCC Task Group on Gender as well as for the support of the IPCC secretariat.*
- *Establish a Task Group on Gender Policy and Gender Implementation Plan (TG-Gender) with the aim of developing a draft Gender Policy and a Gender Implementation plan to improve gender balance and address gender-related issues within the IPCC, for consideration by the Panel at its 52nd Session.*
- *Adopt the terms of reference of the Task Group on Gender Policy and Gender Implementation Plan as contained in Annex 1 to this document.*

Annex 1

- *The Task Group is open to IPCC members, Bureau members and Technical Support Unit staff and will be chaired by Ko Barrett, IPCC Vice-Chair.*
- *The work of the Task Group is supported by the Secretariat.*
- *The Task Group can call upon external experts, as appropriate.*

- *The purpose of the Task Group is to develop a draft IPCC Gender Policy and Gender Implementation Plan considering the Report of the IPCC Task Group on Gender and Gender-related issues. The implementation plan will identify specific actions, tasks, roles and responsibilities, as well as modalities for monitoring, reporting progress on the execution, review, and possible future updates of the implementation plan, including budgetary implications.*
- *The Task Group's mode of working will be through various electronic means and face to face meetings during IPCC plenaries. Teleconferencing arrangements will be provided from the IPCC Secretariat.*
- *The Task Group will present the draft Gender Policy and Gender Implementation Plan for consideration by the 52nd Session of the IPCC.*

1.3. Vision and purpose

The value of IPCC assessments comes from the voluntary participation of the world's best experts, the open and transparent assessment process, and the interface between the international scientific community and policymakers. To continue to produce leading scientific assessments, the IPCC harnesses the best minds, but also utilize the problem-solving power of diverse perspectives. The IPCC is dedicated to pursuing a future state where gender¹ is mainstreamed into its processes in an inclusive and respectful manner and where there is gender balance in participation and where all have equal opportunity irrespective of gender. In so doing, the IPCC will raise awareness of the benefits of gender equality. While the focus of this policy is on gender, it is important to recognise that gender often intersects with other factors that influence participation including race, ethnicity, language, disability, age, diversity of expertise, or nationality. This Policy and Implementation Plan establishes goals and implementation actions that lead the IPCC towards achieving this vision.

1.4. Conformity with national gender policy

The IPCC Gender Policy and Implementation Plan is applicable for all IPCC participants and it sets gender-related objectives for the IPCC's overall governance and execution. IPCC recognizes the sovereignty of individual member countries. Therefore, this Policy and Implementation Plan does not intend to supersede national legislation, policies, or structures. It sets standards and expectations for the work of the IPCC.

1.5. Mapping the Landscape

This Policy and Implementation Plan was informed by other relevant gender policies and guidance documents, such as those from the United Nations). These resources, and others identified as relevant by the first IPCC Task Group on Gender, are included below. Other resources within the UN system, as well as national policies and initiatives, research studies, and more, provide relevant knowledge. Gender policies and plans are context specific, and the IPCC Gender Policy is tailored to the unique mandate, modes of work, and governance structure of this organization. Additional resources listed below are provided solely for the information of IPCC members:

- [WMO Gender Equality](#) Information
- United Nations Environment Programme [Gender Equality](#) Information

¹ IPCC notes that there are different definitions of gender, such as by UN Women, which states: "Gender refers to the roles, behaviours, activities, and attributes that a given society at a given time considers appropriate for men and women. (...) Gender is part of the broader socio-cultural context, as are other important criteria for socio-cultural analysis including class, race, poverty level, ethnic group, sexual orientation, age, etc." <https://trainingcentre.unwomen.org/mod/glossary/view.php?id=36> In this document, the term gender also includes non-binary gender identities.
